

National Health and Medical Research Council

Strategic Research Development Committee

**CENTRE OF CLINICAL RESEARCH EXCELLENCE IN ABORIGINAL AND
TORRES STRAIT ISLANDER HEALTH**

INSTRUCTIONS TO APPLICANTS

Applications to be returned no later than 5pm Friday 15 November 2002.

Late or incomplete applications will not be accepted.

Applications must be typed, with font no smaller than 12 point font Times New Roman. **One** hard copy (i.e. the original with signatures) and one e-mailed copy of the application is required.

RETURN TO: Alison Clegg
Research Development Section
NHMRC – MDP 100
GPO Box 9848
CANBERRA CITY ACT 2601

E-MAIL: alison.clegg@nhmrc.gov.au

COURIER ADDRESS: Alison Clegg
Research Development Section
Office of NHMRC
32 Corinna Street
WODEN ACT 2606

CENTRE OF CLINICAL RESEARCH EXCELLENCE (CCRE) IN ABORIGINAL AND TORRES STRAIT ISLANDER HEALTH

General

Applicants are advised to read carefully this guide before preparing and submitting their application. Please ensure that all information contained in the application is correct at the time of submission and is consistent with the 'Joint NHMRC/AVCC Statement and Guidelines on Research Practice'.

<http://www.nhmrc.health.gov.au/research/general/nhmrcavc.htm>

Confidentiality

All applications submitted to NHMRC are treated in confidence and are not public documents. Details of unsuccessful applications are kept confidential.

All relevant documents are handled in compliance with the *Privacy Act 1988*, which sets standards for collecting, storing, using and disclosing, and accessing, personal information. They are also subject to the provisions of the *Freedom of Information Act 1982* and are available by making a valid application in accordance with the Act.

Formatting

Applications must be typed with font no smaller than 12 point font Times New Roman.

1 Centre Title

Provide a title for the Centre (*limit of 120 characters*).

2 Chief Investigator

List all nominated Chief Investigators for the applicant team.

3 Administering Institution

- (a) The application must be submitted through a NHMRC registered administering institution (current list at *Attachment 1*). Please provide the name and address of your nominated administering institution. The NHMRC will recognise only one institution as the administering institution.

If you wish to submit an application through an institution which is not currently NHMRC recognised, you can obtain further information on the NHMRC's Administering Institution Policy and how to apply for registration from the NHMRC Grantnet Helpdesk on 1800 500 983.

- (b) Indicate where the research will actually be carried out, and the reasons for this if different to the administering institution.

- (c) A percentage should be allocated to each institution and department involved in conducting the project to reflect the degree of sharing the research effort among the actual institutions listed.

Where more than one institution is involved, please provide details of the agreed arrangements for management of the grant (including how intellectual property will be handled). The head of your administering institution will be required to certify that arrangements for the management of the grant have been agreed between all institutions associated with this application.

4 Chief Investigator details

Please provide the following information for each named Chief Investigator:

- (a) Provide title (choose title from pick list below), given names, family name, current postal and courier address, work telephone number, facsimile and e-mail contact for each Chief Investigator that is correct at the time of submitting the application. This will allow the Office of NHMRC (ONHMRC) to communicate with each applicant, as required. Please notify the administering institution and ONHMRC of any changes to applicant details after the submission date.

TITLE PICK LIST

Associate Professor	Miss	Professor
Dean	Mr	Reverend
Doctor	Mrs	Sir
Emeritus Professor	Ms	Sister

- (b) Strategic Research Grants are available to all researchers based in Australia. Please indicate whether you are an Australian citizen or permanent resident. Where appropriate provide evidence of your permanent residency status.

The NHMRC uses information on age and gender to analyse its processes and outcomes to ensure that all applicants are treated fairly and to provide the academic community with relevant statistics about each application round. Age and gender are not used to determine whether an individual application should be funded.

(c) **Academic Qualifications**

Provide details of academic background, including degrees, prizes, distinctions and/or other special qualifications awarded. Indicate where and when they were awarded.

Current Appointment/s

Provide details of your current position/s (including address) and the current status and nature of your position.

Source of Current Salary

Indicate all sources from which your current salary is derived and the duration of each component of salary support

(d) Further Information

List any further information that you consider relevant to the application.

(e) Attach a brief CV (no longer than 2 pages) for each Chief Investigator including the following details:

Previous Relevant Appointments

Provide details of previous relevant appointments (in chronological order). Absences from full-time academic research (eg involvement with industry, parenting leave, academic teaching appointments, clinical appointments) can be detailed.

Other Research Outcomes

Provide any relevant information in relation to patents, commercialisation, industry involvement, effect on health care practice and/or policy etc.

Non-research Activity

Please outline any other responsibilities and duties that will be undertaken in addition to your role as a Chief Investigator on this grant (eg teaching, clinical practice, industry consultation, administration etc).

(f) Publications – from 1997 onwards

Provide a full list of relevant publications arising from both NHMRC and non-NHMRC funding - numbered in chronological order and sorted into the following sub-categories:

Publications Sub-Categories

Refereed journal article

Review

Research book

Chapter

Patents

Other relevant publications, eg government reports, technical reports, best practice guidelines

Show only details of articles and books that have been published or are in press.

(g) Research Grant Support - from 1997 onwards

List research grant support of the last five years including the year, the amount, the NHMRC grant number and/or funding from all non-NHMRC sources, including other national competitive grants, industry and the private sector:

a) Past support

b) Currently held grants

c) Grants requested/to be requested for 2003 (including tenders/consultancies).

5 Associate Investigators

An Associate Investigator is an investigator who provides intellectual input into the research and whose participation warrants inclusion of their name on publications. Provide title, given names, family name and current address (including telephone, facsimile and e-mail contact) and indicate role in the applicant team.

6 Synopsis

Provide a summary of the aims, objectives and expected outcomes of the proposed Centre (*no more than 400 words*).

7 Detail of Centre Proposal

You have the following pages in which to summarise the proposed research and design of your Centre, including relevant background information. (*This should not exceed 6 pages*).

Please address this information under the following headings of:

- research,
- training (including plans for career development),
- translation,
- consultation with Indigenous communities
- Centre design and governance;
- how the Centre addresses the NHMRC's '*Criteria for Health and Medical Research of Indigenous Australians*'. (This document can be accessed from the NHMRC website at: <http://www.health.gov.au/nhmrc/funding/indighth.pdf>)
- additional aspects (plans for financial sustainability of the Centre and, where appropriate, for collaboration); and
- additional outcomes expected as a direct consequence of Centre funding.

Include information of how Chief Investigators experience will contribute to each of these aspects of the proposed Centre.

(N.B Applicants are encouraged to refer to the supporting document for the CCRE in Aboriginal and Torres Strait Islander Health which provides additional information on the aims and objectives for the CCRE program, and for the CCRE in Aboriginal and Torres Strait Islander Health.)

8 Outcomes and Evaluation

Detail the expected outcomes of the Centre and specify how these can be evaluated both progressively and at the end of the Program. (*This should not exceed 2 pages*).

9 Budget

The total budget available for CCRE in Aboriginal and Torres Strait Islander Health \$2 million over five years.

Detail Centre budget under the headings: research, training, translation and governance for the Centre. Note, due to system requirements, budget items are to be separated into Personnel and Equipment/Consumables.

Provide a brief justification of your budget request in terms of the Centre aims.

The grant will be awarded to the applicant team on a one-line basis to allow maximum flexibility in the use of funds. No additional funds will be provided during the life of the grant.

No GST is payable. Provision for on-costs etc has been factored into the quanta and is therefore not payable as a separate budget item.

The NHMRC budget quanta and clinical loadings are provided below as a guide only:

NHMRC SALARY PICK LIST

Position	Salary (\$)
PSP1	40,000
PSP2	50,000
PSP3	55,000
PSP4	65,000
PSP5	70,000

NHMRC LOADINGS PICK LIST

Description	Amount (\$)
Full Medical	15,030
Half medical	7,515

Current NHMRC scholarship stipend rates are included below as a guide only.

NHMRC SCHOLARSHIP STIPEND RATES

Background	Basic rate (\$)	Including allowances* (\$)
Basic postgrad scholarship	17,609	19,214
With professional qualification (eg. nursing/physio)	22,723	24,328
With medical/dental degree	26,188	27,793

*Allowances include \$1,070 maintenance and \$535 conference travel per annum.
Thesis allowance payable to a maximum of \$860 for a Ph.D. and \$430 for a Masters

Please note that scholars funded using CCRE funds will not be deemed to be NHMRC Postgraduate Scholars

10 Assessors

Applicants may seek approval for a particular assessor not to be approached to assess the application. Only one request is allowed. Provide the name and address of the requested non-assessor and a justification of this request against the following criteria:

Conflict of Interest – because the person is a collaborator, supervisor, relative, or similar.

Personal Concerns – that lead you to believe that the assessor would be incapable of giving a fair assessment because of unreasonable bias. Claims of irreconcilable personal differences should be supported with sufficient detail to enable the Working Committee to appreciate the situation.

There is no guarantee that a request for a non-assessor will be accepted. Your request will be made known only to the persons directly involved in the choice of assessors for the application.

11 Ethics Approvals

It is the applicant's responsibility to ensure that all necessary human, animal and biosafety approvals are obtained from the relevant ethics committee or other approval body, and that a copy is forwarded to the Research Administration Officer (RAO) of the Administering Institution. The RAO must then complete the attached form when all clearances have been obtained and return it to the Office of NHMRC.

Funding will not commence until ethics approval has been finalised.

12 Area of Research

From the attached list (*Attachment 2*), choose the broad research area, field of research, broad health area and socio-economic objectives that best describes the area of your research.

List five keywords which most closely describe this Centre. Please avoid words used in the above classifications. **DO NOT EXCEED 20 CHARACTERS, INCLUDING SPACES.** No additional characters will be recorded.

The socio-economic objective of research allows it to be classified in line with the researcher's perceived **purpose** in undertaking the particular study. It is not to be confused with the **nature** of the research, i.e. the field of research. The code is to be typed into the upper part of the box and the percentage allocation into the lower part. The sum of numbers in the lower boxes must equal 100%.

13 Certification

Certification is required from each of the chief investigators and both the administering institution and institution at which the research is to be carried out (if different). Please arrange for the attached certifications to be completed and returned with your application.

]

Number of Copies

One original signed copy plus on e-mailed copy of the application must be lodged by **5pm Friday 15 November 2002** with:
