NHMRC Career Development Fellowships
Co-Funding Partners

2015 for funding commencing in 2016

NHMRC / Research Foundation of Cerebral Palsy Alliance Career Development Fellowship

The Research Foundation of Cerebral Palsy Alliance (www.cpresearch.org.au) may support one Career Development Fellowship for the current award period. The Research Foundation of Cerebral Palsy Alliance offers a range of grants to support research into the prevention and cure of cerebral palsy. More information can be gained about the research priorities on their website or via cparesearchgrants@cerebralpalsy.org.au.

The successful applicants will have a demonstrated commitment to, and track record in cerebral palsy research. Clinical or Health Professional practice components must be relevant to cerebral palsy or related conditions.

The Research Foundation of Cerebral Palsy Alliance may call upon the successful candidate to provide assistance with publicity, education and other events. It also requires acknowledgment of its support for the research in any publications or media publicity, and requires a copy of any published articles arising from the supported research. Successful candidates’ work may be mentioned in publications from the Research Foundation of Cerebral Palsy Alliance.
NHMRC / Juvenile Diabetes Research Foundation Career Development Fellowship

http://www.jdrf.org.au

Juvenile Diabetes Research Foundation (JDRF) Australia, in partnership with the NHMRC is offering to co-fund NHMRC Career Development Fellowships for research relevant to JDRF’s mission – the treatment, prevention and cure of type 1 diabetes and its complications.

JDRF aims to foster the development and productivity of the best and brightest established independent health and medical researchers to undertake high impact research in the field of type 1 diabetes research. The successful candidate will have an established track record and a demonstrated commitment to clinical or translational research focused on type 1 diabetes or type 1 diabetes complications.

JDRF requires acknowledgment in any publications or media publicity relating to the supported research, and requires a copy of any published articles arising from the supported research. Annual progress reports and financial acquittals will be required. JDRF may call upon fellows to provide assistance with publicity and other events. Co-funded fellowships may have additional conditions in relation to funding administered by JDRF.

For further details, contact Dr Alisa Knapman on aknapman@jdrf.org.au.

NHMRC / National Heart Foundation of Australia Career Development Fellowship

www.heartfoundation.org.au

The National Heart Foundation of Australia is offering to co-fund Career Development Fellowships in the areas of biomedical, clinical, public health or health services research, in partnership with the NHMRC. The successful applicants will have a commitment to and a track record in, research on cardiovascular disease or related disorders.

To be eligible for this co-funded award applicants must also submit a separate application for a Heart Foundation Future Leader Fellowship and be successful for both a Heart Foundation Future Leader Fellowship through the Heart Foundation peer review process and a NHMRC Career Development Fellowship through the NHMRC peer review process.

The successful candidate will be required to provide yearly updates on their work to the Heart Foundation and will also be required to provide yearly financial acquittals for the funds provided by the Heart Foundation. The Heart Foundation may also have additional conditions in relation to the expenditure of Heart Foundation funds.
Please note that the Heart Foundation requires that individuals, research groups or research institutions associated with this award shall not accept any research grant funds, consultancies or sponsorship from the tobacco industry or person connected with the tobacco industry. The Heart Foundation may call upon fellows to provide assistance with publicity and other events. It also requires acknowledgment of its support for the research in any publications or media publicity, and requires a copy of any published articles arising from the supported research.

NHMRC / SpinalCure Australia Career Development Fellowship

www.spinalcure.org.au

SpinalCure Australia will aim to support one Career Development Fellowship for the 2016-2019 period. The successful candidate will have a commitment to and/or track record in, research towards a greater understanding of and/or potential treatments for spinal cord injury. SpinalCure Australia encourages applications from researchers in the cellular field (such as stem cells) or those using neurological or physiological approaches that aim to improve function or stimulate movement after a spinal injury.

SpinalCure may call upon the successful candidate to provide assistance with publicity, and other events. It also requires acknowledgment of its support for the research in any publications or media publicity, and requires a copy of any published articles arising from the supported research.

The successful candidate may be asked to present progress reports to the directors of SpinalCure. There may also be opportunities to make presentations at other functions and their work may be mentioned in SpinalCure publications.

The NHMRC / SpinalCure Australia Career Development Fellowship offers recipients the opportunity to network with other researchers and professionals in the field and may help them with the translation and dissemination of their research findings.

SpinalCure Australia funds research aimed at curing the paralysis caused by a damaged spinal cord.
