

NHMRC POSTGRADUATE SCHOLARSHIPS FUNDING PARTNERS

Cerebral Palsy Foundation/NHMRC Scholarship

CP Foundation will support one Doctoral Scholarship in partnership with NHMRC. The Foundation (www.cpfoundation.com.au) offers a range of grants to support cerebral palsy research. The successful candidate will have a demonstrated commitment to, and track record in cerebral palsy research.

The CP Foundation/NHMRC Doctoral Scholarship offers the recipient an opportunity to pursue their interest in cerebral palsy research, to acquire knowledge and skills from other cerebral palsy researchers and professionals and to seek assistance from the CP Foundation with any aspect of their work. This might include the recruitment of participants for research trials. The successful candidate may be asked to present progress reports to the trustees of the CP Foundation. The successful candidates may also have opportunities for presentations at CP Foundation donor functions and be supported to present their work at the national conference.

Successful candidate's work may be mentioned in CP Foundation publications. The Foundation also requires acknowledgment of its support for the research in any publications or media publicity, and requires a copy of any published articles arising from the supported research.

MND Research Australia/NHMRC Scholarship

The MND Research Institute of Australia (www.mndresearch.asn.au) is offering a scholarship for a PhD student in the areas of biomedical, clinical or public health, in partnership with the NHMRC. The successful applicant will have a commitment to research directly related to the cause, treatment or cure of motor neurone disease, or the support of people living with motor neurone disease.

The MND Research Institute of Australia requires acknowledgment of its support for the research in any publications or media publicity, and requires a copy of any published articles arising from the supported research. It also requires an annual progress report. The MND Research Institute may call upon scholars to provide assistance with publicity and other events.

MSRA/NHMRC Betty Cuthbert Scholarship

Multiple Sclerosis Research Australia (MSRA) (www.msra.org.au) is offering a scholarship in the areas of biomedical, clinical or population health, in partnership with the NHMRC. The successful applicant will have a commitment to, and a track record in, research on multiple sclerosis or related disorders.

MSRA may call upon scholars to provide assistance with publicity and other events. It also requires acknowledgment of its support for the research in any publications or media publicity, and requires a copy of any published articles arising from the supported research.

National Heart Foundation of Australia/NHMRC Scholarship

The National Heart Foundation of Australia (www.heartfoundation.com.au) is offering Scholarships in the areas of biomedical, clinical or population health, in partnership with the NHMRC. The successful applicants will have a commitment to research on cardiovascular disease or related disorders.

The National Heart Foundation of Australia requires that individuals, research groups or research institutions associated with this award shall not accept any research grant funds, consultancies or sponsorship from the tobacco industry or person connected with the tobacco industry. The Heart Foundation may call upon scholars to provide assistance with publicity and other events. It also requires acknowledgment of its support for the research in any publications or media publicity, and requires a copy of any published articles arising from the supported research.

Pharmacy Guild Scholarships

The Fourth Community Pharmacy Agreement Research and Development (R&D) Program will support PhD Scholarships in partnership with NHMRC. The Program (www.guild.org.au/research) funds projects related to community pharmacy practice with the greatest potential to deliver services with positive health outcomes for consumers and economic impacts for the health system in general. The successful candidate/s will have a demonstrated commitment to community pharmacy practice, and a track record in pharmacy research.

The Pharmacy Guild of Australia as manager of the Fourth Community Pharmacy Agreement R&D Program may ask the successful candidate/s to present progress reports and to provide assistance with publicity and other events. Successful candidate/s' work may be mentioned in Pharmacy publications. Acknowledgment of Fourth Community Pharmacy Agreement support for the research is required in any publications or media publicity. A

copy of any published articles arising from the supported research must be provided to the Guild and the Australian Government Department of Health and Ageing.

The program does not extend to research based on care or programs delivered outside of the above settings, such as care and programs delivered:

- In hospitals;

Retina Australia/NHMRC Scholarship

Retina Australia (www.retinaaustralia.com.au) in conjunction with the NHMRC, is offering up to two scholarships in the field of Retinitis Pigmentosa (RP) and other retinal dystrophies (excluding diabetic retinopathy).

The successful applicants will have a commitment to, and a track record in, research into RP and other retinal dystrophies.

It is required that individuals, research groups or research institutions associated with this award shall not accept any research grant funds, consultancies or sponsorship from the tobacco industry or person connected with the tobacco industry.

Retina Australia may call upon scholars to provide assistance with publicity and other events. It also requires acknowledgment of its support for the research in any publications or media publicity, and requires a copy in “plain English” of any published articles arising from the supported research.
