

NHMRC – European Union Collaborative Research Grants (NHMRC – EU Scheme) for funding commencing in 2012

The information presented on this page is provided to the research community as advice about the outcomes of the competitive peer review process for this scheme.

In accordance with the Funding Agreement between the Commonwealth of Australia and the Institution in respect of NHMRC research funding schemes, the Institution must ensure that all relevant reporting requirements are met and that relevant approvals for the research are obtained and maintained for the duration of the Project.

NHMRC will contact researchers and their Research Administration Officers in relation to meeting requirements, including eligibility, before the commencement of funding. Funding will not commence until all relevant requirements have been met.

Application ID	CIA	Title	Administering Institution	Amount
APP1037863	A/Prof. David Howells	Biomarkers for assessing the effectiveness of hypothermia as a therapy in ischaemic stroke patients	National Stroke Research Institute	\$995,995
APP1037879	Prof. Roland Stocker	Oxidant-producing proteins as novel targets to combat neurodegenerative diseases	University of Sydney	\$944,795
APP1037916	Dr Jeremy Jowett	Identification of epigenetic markers underlying increased risk of T2D in South Asians.	Baker IDI Heart and Diabetes Institute	\$218,078
APP1037966	Prof. Wendy Oddy	Long-term influence of early nutrition on metabolic health	University of Western Australia	\$323,250
APP1037979	Prof. Michael Fenech	NutriTech - Application of new technologies and methods in nutrition research – the example of phenotypic flexibility	CSIRO (Food and Nutritional Sciences)	\$205,450
APP1037988	Prof. Michael Kassiou	New strategies in the treatment and imaging of brain diseases	University of Sydney	\$887,250
APP1038018	Dr Richard Saffery	Long-term influence of early nutrition on health	Murdoch Children's Research Institute	\$524,557
APP1038210	Dr Kim Delbaere	Development and evaluation of innovative home-based technologies for continuous monitoring and prevention of falls in community-dwelling older adults	University of New South Wales	\$559,399
APP1038739	Prof. Stephen Colagiuri	e-PREDICE Early Prevention of Diabetes Complications in Europe	University of Sydney	\$917,400
