

NHMRC Development Grants

Applications for funding to commence in September 2007				
State	Received	Successful	Success Rate	Total Funding
ACT	1	0	0%	n/a
NT	0	0	n/a	n/a
NSW	5	0	0%	n/a
QLD	4	1	25%	\$97,813
SA	7	0	0%	n/a
TAS	0	0	n/a	n/a
VIC	18	4	22%	\$1,091,250
WA	5	2	40%	\$393,925

Queensland

Title Clinical trial of respiratory sonification
Chief Investigator Professor Penelope Sanderson
Institution University of Queensland
Budget \$97,813

Victoria

Title Non surgical repair for tricuspid valve failure
Chief Investigator Professor David Kaye
Institution Baker Heart Research Institute
Budget \$327,500

Title MRI-nanoparticles for non-invasive diagnosis of vascular diseases
Chief Investigator Professor Karlheinz Peter
Institution Baker Heart Research Institute
Budget \$327,500

Title Development of an orally active peptide for treatment of heart failure
Chief Investigator A/Professor Geoff Head
Institution Baker Heart Research Institute
Budget \$376,750

Title Novel bird flu vaccine
Chief Investigator Professor Geoffrey Pietersz
Institution Macfarlane Burnet Institute for Medical Research and Public Health
Budget \$187,000

Western Australia

Title Development of technologies to detect receptor-receptor interactions in living cells
Chief Investigator A/Professor Karen Eidne
Institution University of Western Australia
Budget \$199,250

Title Non-Mydriatic Retinal Imager for Glaucoma screening
Chief Investigator Professor Yogesana Kanagasingam
Institution University of Western Australia
Budget \$194,675
