

Successful Development Grants commencing January 2010

Name	Institution	Project Title	Funding
AUSTRALIAN CAPITAL TERRITORY			
Dr Charani Ranasinghe	Australian National University	A novel strategy to improve vaccine efficiency	\$232,500
NEW SOUTH WALES			
Prof Mark Walker	University of Wollongong	Developing a safe group A streptococcal vaccine	\$483,600
A/Prof Leslie Foster	University of New South Wales	Sutureless Technology for Cranial Surgery	\$213,125
Prof Anatoly Rozenfeld	University of Wollongong	A new multifunctional probe for in-body radiation imaging and dosimetry during brachytherapy treatment of prostate cancer.	\$523,500
A/Prof Jamie Vandenberg	Victor Chang Cardiac Research Institute	High throughput screen to detect drugs that may cause sudden cardiac death	\$347,750
Prof Anthony Weiss	University of Sydney	Elastaderm	\$323,747
QUEENSLAND			
Prof David Fairlie	University of Queensland	A New Drug That Binds Cell Surfaces And Blocks Inflammation	\$610,500
SOUTH AUSTRALIA			
Prof Hans Griesser	University of South Australia	Novel silver nanoparticle coatings for the prevention of infection of biomedical implants and devices	\$451,200
A/Prof Allison Cowin	University of Adelaide	Development of new wound therapy	\$529,450
WESTERN AUSTRALIA			
Prof Yogesan Kanagasam	University of Western Australia	Development of a non-invasive screening device for Retinopathy of Prematurity	\$193,575

VICTORIA

Dr Leslie Yeo	Monash University	The Respire™ system: Efficient and Portable Delivery Device for Treating Elderly, Paediatric and Physically-Compromised Patients with Chronic Respiratory Illness	\$464,000
A/Prof Sharon Ricardo	Monash University	Novel treatments for premature infants	\$383,250
Prof Mark Cook	Bionic Ear Institute	Development of an ambulatory epilepsy treatment device	\$415,700
Prof Charles Mackay	Monash University	Targeting CXCR7 for fibrosis	\$394,000
Prof John Hutson	Murdoch Children's Research Institute	GUTSTIM device for constipation	\$373,750
Dr Elizabeth Grgracic	Macfarlane Burnet Institute for Medical Research and Public Health	HIV-1 Trimeric Envelope Vaccine	\$139,250
Dr Russell Tait	Centre for Eye Research Australia Ltd	Novel Ocular Implant	\$479,250
Prof David Kaye	Baker IDI	Drug development for pulmonary hypertension	\$470,100
A/Prof Arnan Mitchell	RMIT	Diagnostic Tool for Assessment of Blood Clotting Behaviour	\$267,750
