

NHMRC Development Grants

Applications for funding to commence in January 2007				
State	Received	Successful	Success Rate	Total Funding
ACT	2	1	50%	\$143,750
NT	0	0	n/a	n/a
NSW	9	2	22%	\$292,838
QLD	12	2	17%	\$308,000
SA	10	2	20%	\$191,625
TAS	0	0	n/a	n/a
VIC	24	13	54%	\$3,375,140
WA	8	2	25%	\$357,613

Australian Capital Territory

Title Rapid, cost-effective, diagnosis and monitoring of multiple sclerosis
Chief Investigator Prof Terry Maddess
Institution Australian National University
Budget \$143,750

New South Wales

Title DietAdvice
Chief Investigator Ms Yasmine Probst
Institution University of Wollongong
Budget \$138,338

Title Development of PKC epsilon as a new drug target for the treatment of Type 2 diabetes
Chief Investigator A/Pr Trevor Biden
Institution Garvan Institute of Medical Research
Budget \$154,500

Queensland

Title An anti-bleeding agent from snake venom
Chief Investigator Prof Martin Lavin
Institution University of Queensland
Budget \$109,250

Title A Novel Therapeutic for Graft Versus Host Disease
Chief Investigator Dr David Munster
Institution Mater Medical Research Institute
Budget \$198,750

South Australia

Title Anatomical Mapping System
Chief Investigator Prof Prashanthan Sanders
Institution University of Adelaide
Budget \$101,125

Title Development of new products for infertility treatment
Chief Investigator Dr Robert Gilchrist
Institution University of Adelaide
Budget \$90,500

Western Australia

Title Ultrasonic Blood Pressure on Implants
Chief Investigator A/Pr James Semmens
Institution University of Western Australia
Budget \$189,138

Title New Ophthalmodynamometer
Chief Investigator Dr William Morgan
Institution University of Western Australia
Budget \$168,475

Victoria

Title Production of chimeric antibody for cancer treatment
Chief Investigator Prof Pei Xing
Institution Macfarlane Burnet Institute for Medical Research and Public Health
Budget \$185,500

Title Development of a depth of anaesthesia monitor
Chief Investigator Prof Paul Myles
Institution Monash University
Budget \$413,000

Title Novel drug for the therapy of beta-thalassaemia
Chief Investigator Dr Jim Vadolas
Institution Murdoch Childrens Research Institute
Budget \$280,375

Title Fluid control of refractive error
Chief Investigator Prof David Crewther
Institution Swinburne University
Budget \$204,900

Title Depth of anaesthesia monitor
Chief Investigator Dr David Liley
Institution Swinburne University
Budget \$182,500

Title SERS Glucose Spectrometer
Chief Investigator Dr Paul Stoddart
Institution Swinburne University
Budget \$400,490

Title Identifying women at risk of preterm labour
Chief Investigator Dr Harry Georgiou
Institution University of Melbourne
Budget \$198,375

Title A new experimental drug to treat brain tumors
Chief Investigator Dr Christopher Hovens
Institution University of Melbourne
Budget \$295,500

Title New drugs to reduce the side-effects of cancer radiotherapy
Chief Investigator A/Pr Roger Martin
Institution University of Melbourne
Budget \$264,850

Title Development of drugs that block IRAP activity as anti-dementia agents.
Chief Investigator Dr Siew Yeen Chai
Institution University of Melbourne
Budget \$191,750

Title Development of an inhibitor for modification of GAG chains and prevention of atherosclerosis
Chief Investigator A/Pr Peter Little
Institution Baker Heart Research Institute
Budget \$378,900

Title Treatment of Cardiorenal Syndrome
Chief Investigator Prof Henry Krum
Institution Monash University
Budget \$195,000.00

Title Development and validation of a prototype platelet diagnostic instrument
Chief Investigator Prof Shaun Jackson
Institution Monash University
Budget \$184,000.00
