Subject typos in 95AA guidelines [No Protective Marking]

Dear Vesna and Sharon,

Some minor typos in the document:

page 3 - insert 'to' in 'Key points for good practice are to:' at bottom of page

page 4 - second dot point in list at bottom of page: insert semicolon at end

page 25 - delete 'A woman' at beginning of scenario 2

page 29 - first dot point in Points for consideration: delete comma after 'repeated miscarriages'

Best wishes,

Peter
