

Tracker – 19 February 2010 edition

Peer Review of applications into Indigenous health

For applications involving Indigenous health research for Project Grants, Postgraduate Scholarships, Training awards and Career Development Awards, NHMRC will establish specific Indigenous Health Peer Review Panels for 2010. Panel members will have both research expertise and will assess applications against the *Criteria for Health and Medical Research of Indigenous Australians*.

For Indigenous health applications for other schemes, specific external written assessment against the *Criteria for Health and Medical Research of Indigenous Australians* will be sought.

Further information can be found on the [NHMRC website](#).

TRIP Fellowships – new application closing date

The Translating Research Into Practice (TRIP) Fellowships has a **new application closing date: Friday, 5 March 2010, 5:00pm AEDST**. Further information is available on the [NHMRC website](#).

Please note, applications to this new scheme will not be via NHMRC's new online Research Grants Management System (RGMS).

Management of volatile substance use

NHMRC is developing clinical practice guidelines for the management of volatile substance use (VSU). To register to receive updates on the progress of the guidelines, please email your contact details to vsu@nhmrc.gov.au or for further information, visit the [NHMRC website](#).
