

NICS SCHOLAR 2004

Ms Sonja Hood

*School of Population Health,
University of Melbourne, VIC*

Implementation Project:

Improving evidence-based pharmacological management of heart failure in Australia

Ms Hood's project will identify projects which have aimed to improve the pharmacological management of heart failure and the factors which have facilitated and hindered implementation of change in these projects. Heart failure is a major cause of death and disability in Australia, however evidence shows that many patients with heart failure do not receive optimal management of their condition.

Funding Partner:

Ms Hood's Scholarship is supported by the National Institute of Clinical Studies.

Project Supervisor:

Associate Professor David Dunt
Director, Centre for Health Policy,
Programs and Economics, School of
Population Health, University of
Melbourne, VIC

Co-Supervisor:

Dr Sue Phillips
Director, Research Implementation
Program, NHMRC National Institute
of Clinical Studies, VIC

Key Presentations:

Taylor S, Hood S. The devil in the detail: data abstraction forms for systematic reviews of complex interventions [workshop]. 14th Cochrane Colloquium. Dublin; 2006.

Hood S. Meta-analysis of systematic reviews of complex interventions: lessons/insights from complex interventions in heart failure [poster]. 14th Cochrane Colloquium. Dublin; 2006.

Key Presentations:

Hood S, Bereznicki L, Dunt D, Jackson S, Lowe A, Mackson J, et al. Interventions to improve evidence-based prescribing for heart failure (protocol). Cochrane Database of Systematic Reviews. 2006(3).
