# Problems in research

- To reduce mismatches in what gets researched, and what is useful to research
- To avoid waste in research

Alliance

Priority Setting Partnerships

# Our Partnerships

In 2016 we worked with a UK consultant Sally Crowe, a former consultant with the James Lind Alliance, to develop a process for seeking community input into priorities for future research for our Australian context.

We have conducted three priority setting partnerships on the following topics:

- Family and Domestic Violence
- The Fetal Alcohol Spectrum Disorder and Alcohol Consumption in Pregnancy
- Living Longer
