

Program Day 2: Wednesday 28 November 2018

	Registration - ABS Foyer 8am-9am			
9am-10:30am	Plenary Session 3 : The Reproducibility Crisis Room: ABS Auditorium Chair: Professor Doug Hilton Professor Glenn Begley Professor Tammy Hoffman Professor Kathryn McPherson Dr Joanne Mckenzie			
	Morning Tea 10:30am-11am			
11:00am-12:30pm	2A - Implementable Clinical Practice Guidelines Chair: Geraint Duggan Room: ABS Auditorium	2B - Evidence Informed Priorities Chair: Chendur Palaniapan Room: Lecture Theatre 1050	2C - Conducting Robust Research Chair: Julia Tresidder Room: Lecture Theatre 1060	2D - Ensuring Value Through Data Sharing and Data Linkage Chair: Pat Ridgway Room: Lecture Theatre 1170
	Moving stroke research into policy and practice: experience and access of the MAGICapp online clinical guideline platform Kelvin Hill	Does industry involvement influence study characteristics at time of trial registration? Anna Lene Seidler	Using the R statistical software to improve the reproducibility, transparency and translation of research Adrian Barnett	Using Cost-Benefit Analysis to Determine an Accurate Value for Research Biobanking Amanda Rush
	Agents of Change: Making the evidence accessible to disrupt the status quo in dementia care Monica Cations	How to Optimise Refugee Children's Health/Wellbeing in Preparation of Transitions into Primary and Secondary School: A Qualitative Inquiry. Jess Baker	Studies within a trial (SWAT): Improving the evidence base for trial recruitment and retention Elaine Pascoe	Bolstering evidence-informed health policy: Using the National Data Linkage Demonstration Project (NDLDP) to identify evidence-practice gaps in post-discharge cardiac care Andrea Schaffer
	Describing a user-informed approach for developing key questions for general practitioner guidelines Samantha Chakraborty	Systematic reviews of animal studies - Towards more evidence-based pre-clinical research and translation Judith Van Lujik	A review and synthesis of the knowledge user engagement frameworks to identify essential features: toward building understandings of collaborative research practices Ian Graham	A FAIR Data Sharing Framework for Large-Scale Human Cancer Proteogenomics Brett Tully
	Implementation of acute low back pain guideline recommendations: a cluster randomized controlled trial with chiropractors and physiotherapists Simon French	PCORI Methodology Standards in Practice: Use of systematic reviews to support proposals for new research Kelly Dunham	Every (research) tree needs SAP: Why Statistical Analysis Plans are vital to robust research? Lauret Billiot	Applying FAIR (Findable, Accessible, Interoperable and Reusable) principles to linked datasets: opportunities and challenges Keith Russell
	Treating changed behaviours in dementia and appropriateness of medication use in residential aged care: Addressing research priorities of the Clinical Practice Guidelines for People with Dementia Stephanie Harrison	Identifying alternative delivery models to increase value and sustainability of healthcare: A scoping review of systematic reviews Polina Putrik	Improving the management of infants with bronchiolitis: developing tailored research translation interventions for a cluster randomised controlled trial Libby Haskell	Findable, Accessible, Interoperable, and Reusable (FAIR) data Kate LeMay
	Identifying and integrating patient and caregiver perspectives in clinical practice guidelines for percutaneous renal biopsy Talia Gutman	Maximising value by increasing usability of research findings: assessing the impact of a novel participatory approach to disseminating findings from an Indigenous primary healthcare project Shanthi Ramanathan	Facilitating healthcare decisions by assessing the certainty in the evidence from preclinical animal studies. Merel Ritskes-Hoitinga	Improving supportive care in cancer with innovative use of AI for invasive fungal diseases Michelle Anandra-rajah
12.30pm - 12.45pm	NHMRC's 'Guidelines for Guidelines' Handbook Launch; This online resource aims to Help Guideline Developers Meet the NHMRC Standards for Guidelines and Ensure Their Guidelines Meet Best Practice. Speakers: Davina Gheri and Geraint Duggan Room: Auditorium			
	Lunch 12:30pm-1:30pm			
1.30pm-3pm	3A - Australian Health Research Alliance (AHRA) Chair: Garry Jennings Room: Lecture Theatre 1050	3B - Partners in Co-Production Chair: Tony Keech Room: Lecture Theatre 1060	3C - Embedding Research in Practice Chair: Davina Gheri Room: ABS Auditorium	3D - Knowledge Translation in Practice Chair: Wee-Ming Room: Lecture Theatre 1170
	Australian Health Research Alliance (AHRA) - National priority setting in Data Driven Healthcare Improvement Helena Teede	Why should we pay attention to power within co-production research and integrated knowledge translation Chris Mccutcheon	Feasibility and acceptability of living systematic reviews: results from a mixed methods evaluation Tanya Millard	Reducing low-value knee arthroscopy: Development of a patient decision aid to support research translation Denise O'Connor
	Challenges for Australia's healthcare system: Addressing the gaps in the evaluation of health technology and implementation at the 'local' level Andrew Searles	Research translation: engage decision-makers at the beginning, middle, or end? Jennifer Thompson	The PROMPT-Care eHealth system to support patient-centred care: The long road to transition to business as usual Ivana Durcinoska	Implementation in the real world: Current screening for gestational diabetes is failing to detect women at risk of adverse birth outcomes Erica Spry and Emma Jamieson
	Strengthening consumer and community involvement in health research across Australia – where are we and where might we go? Gary Geelhoed Garry Jennings	A robust translational research, all of health sector approach to improving continuity of care for Aboriginal people with chronic diseases Herbert Mack	AuTOMATIC: Implementation of a highly automated response adaptive trial design Julie Marsh	Lessons learnt from using critical appraisal to inform emerging health technology funding decisions at the Accident Compensation Corporation Melissa Barry
	Driving research translation and measuring impact across the Sydney Partnership for Health, Education, Research & Enterprise (SPHERE) Christopher Levi	Using research evidence and community knowledge to address local priorities: Community-directed development of a diabetes prevention program for young Aboriginal people Kimberly Seear	"Good Beginnings" - increasing early childhood developmental surveillance for children from Culturally and Linguistically Diverse (CALD) Backgrounds. Susan Woolfenden and Tania Rimes	Action for positive change in lung cancer care: Using accessible research methods in implementation science to drive change in clinical practice and build capacity. Nicole Rankin
	The Australian Health Research Alliance (AHRA) National Framework for Health Services Improvement and Sustainability - an MRFF funded National Systems Level Initiative Christopher Levi	Identifying principles and strategies for involving patients and caregivers in research in chronic kidney disease: a report of three workshops Talia Gutman	The new generation of clinical trials: is Australia ready? Katherine Lee	The Costs of Confronting Osteoporosis: Cost Study of an Australian Fracture Liaison Service Rod Ling
	Addressing barriers in Clinical Research – Monash Partners ReForm (Research Facilitation platform) Helena Teede	Consumer Involvement in Clinical Trials: A Scoping Review and Australian Perspective Anne McKenzie	Embedding Clinical Trials within the Australian Healthcare System Nik Zeps	Thrombolysis and Endovascular Flow Network (Teflon) Trial - A Novel Systems Implementation Trial to Streamline Acute Stroke Workflow Towards Improved Reperfusion Therapy Delivery and better Patient Outcomes Sonu Bhaskar
	Afternoon Tea 3pm-3:30pm			
3:30pm-4:30pm	Plenary session 4: Accessing the Outputs of Research: will "Traditional Peer Reviewed Publication" Become a Relic of the Past? Room: ABS Auditorium Chair: Margie Jantti Professor Virginia Barbour Professor Caroline Homer Professor Alexander Holcombe Professor Tom Walley Professor Malcolm Macleod Ryan Merkely			
	Final Speakers - Symposium Close 4:30pm-5pm
