

(Instructions – delete from completed submission template:

- *Refer to the [Guidance on How to Address the Principles for Consideration of a TCR in a TCR Proposal](#) when formulating your response to questions within this submission template.*
- *Template to be converted into a PDF document and submitted through NHMRC's online pathway – refer to the closing dates on the [NHMRC website](#).*

Proposed Research Question *(up to 100 words)*

Provide a clear statement of the research question that would be addressed if the proposal was to be progressed (refer to the [NHMRC website](#) for past TCRs as examples of research questions).

Section 1: Knowledge gap or unmet need *(up to 1500 words)*

The proposed TCR must address a significant research knowledge gap or unmet need within the disease area. There must be the potential to greatly advance our understanding of the issue in the disease area. Make a case for how the proposed TCR addresses a significant research knowledge gap.

Section 2: Potential to improve outcomes for the individual and/or community *(up to 1000 words)*

The proposed TCR must have the potential to improve outcomes for the individual and/or community. How would a successful outcome of the proposed research affect the individual and community?

Section 3: Potential to reduce the burden of disease *(up to 1000 words)*

The proposed TCR must have the potential to reduce the burden of disease on the health system and Australian economy. How would a successful outcome of the proposed research contribute to a sustainable health care system?

Section 4: Global research effort *(up to 1000 words)*

The proposed TCR will contribute to the global research effort. How would the proposed research contribute to international research efforts?

Section 5: Stakeholder Groups *(up to 500 words)*

The proposal should list any stakeholder groups that support the proposed TCR and could include (either here or under previous headings) a brief supporting statement from each group. Also include here any funding or other support (eg access to data, patient registries) that your or other organisations are willing to provide, should the TCR be successful.

Section 6: Additional Information *(up to 500 words, where applicable. If not required do not complete this section and delete the heading.)*

Please enter any additional information (including graphs/tables) relevant to your proposal that does not fit in with the above questions.
