

## Details of 2018 Global Alliance for Chronic Diseases (GACD) Request for Applications: Scaling-up of evidence-based interventions for the prevention or management of hypertension and/or diabetes Applications Recommended for Funding Commencing in 2019

### About the Scheme

The Global Alliance for Chronic Diseases (GACD) is a collaboration of health and medical research funding bodies that initiates, facilitates and supports joint research activities on chronic non-communicable diseases in Low and Middle Income Countries (LMICs) and in vulnerable and indigenous communities in High-Income Countries (HICs).

NHMRC participated in a GACD Request for Applications on the scale-up of interventions for the prevention, or detection and management of hypertension and/or diabetes in LMICs and indigenous communities in HICs.
