

Targeted Call for Research into Biotoxin-related illnesses

For funding commencing in 2022

NHMRC opened a Targeted Call for Research (TCR) into Biotoxin-related illnesses on 21 July 2021. Applications closed on 15 September 2021.

The purpose of the Biotoxin-related illnesses TCR is to produce evidence that will improve our understanding of the origin and pathophysiology of Biotoxin-related illnesses, such as Chronic Inflammatory Response Syndrome.

Applications received during the call were peer reviewed by an expert panel. Following peer review, one application was funded by NHMRC. Details of the awarded grant is provided below:

App ID	Chief Investigator A	Application Title	Administering Institution	Budget
2015197	Prof Gilles Guillemin	An integrated platform for the early diagnosis and treatment of biotoxin-related illnesses in Australia like Chronic Inflammatory Response Syndrome.	Macquarie University	\$1,063,797
