

NHMRC Peer Review Honour Roll 2024

The effectiveness and sustainability of NHMRC [peer review](#) processes depends on researchers with excellent track records and wide-ranging expertise in Australian and international health and medical research fields, who contribute as peer reviewers and external assessors, and individuals from the broader community who independently observe and report on processes and proceedings used by NHMRC during peer review.

This year's honour roll of peer reviewers, chairs, mentors, community observers and external assessors, who have contributed to NHMRC peer review processes, are listed in this document.

Caveats

- These data provide a state/territory and institution breakdown of all peer reviewers (including panel chairs, peer review mentors, external assessors and community observers) appointed in 2024.
- As the data have been collected from information retrieved from Sapphire, the state/territory, institution and/or title of individuals listed may have changed since they completed peer review.
- Institutions are listed in the state/territory in which an individual is based rather than the location of the institution.
- Where an individual has been a peer reviewer for multiple schemes, they have been listed once in the 2024 Honour Roll.
- Individuals whose institution is listed as 'Not Specified' were not associated with an institution or organisation for the purposes of their peer review duties or did not provide an institution or organisation in their Sapphire profile.
- Medical Research Future Fund assessors are recognised on the Department of Health's Medical Research Future Fund [Roll of Honour](#).
