Report Period Start:

Report Period End:

1. Have the aims or objectives outlined in the application changed since funding was awarded for the project? *

Yes

No

Has a Change in Research Plan variation been submitted? *

A Change in Research Plan is required where there is a change in the aims or objectives as specified in the application for the Research Activity and as assessed in the peer review process for funding. NHMRC will only approve a change to the original or previously approved Research Activity in exceptional circumstances, or where the change results from an institutional ethics committee approval process. Refer to [Grantee Variations Policy](#) [LNHMRC](#) for further information.

Yes

No

If no, indicate when a variation will be submitted or explain why you have not requested a variation. *

300 words remaining.

This field is required

Outline/describe how the aims or objectives have changed from those specified in the application for the Research Activity as assessed in the peer review process for funding. *

300 words remaining.

This field is required

2. Have there been improvements to the research techniques used to achieve the research activity? *

Yes

No

The tools and techniques available as well as the approach or strategy may change through the course of research. The response to this question will be considered alongside the stated achievements of the research to consider the realised benefit of any improvements to the research techniques.

If yes, briefly describe the improvement - for example new, cheaper or more accurate technique or technology now available is...

300 words remaining.

This field is required

3. Have risks been identified during the reporting period that may affect the stated research aims, objectives and milestones and will need to be managed to minimise their effect on the research activity? *

Yes

No

If yes, outline the risk, potential consequence and plans to manage the identified risk/s. *

300 words remaining.

This field is required

4. Is your research a clinical trial or does it include a clinical trial component? *

Yes

No

Who is your clinical trial registered with? *

This field is required

Please provide the Clinical Trial Registration number *

(e.g. ANZCTR or equivalent)

This field is required

(e.g., ANZCTR or equivalent, noting that research involving clinical trials is to be registered in the Australian New Zealand Clinical Trials Registry (ANZCTR) or equivalent before recruitment of the first participant. Cohort studies can be registered in the ANZCTR and successful grantees are encouraged to register their study with the registry, if applicable.)

Information provided at this response may be publicly released. Use of this information may include, but is not limited to, publication on NHMRC's website, publicity (including release to the media) and the promotion of research achievements. and/or made publicly available, this may include publication on the NHMRC website.

5. Achievements against milestones or objectives

Please complete the following table for each milestone or objective as outlined in the grant application. Note: The Planned End Date for each milestone aligns with the original plan in the grant application. The Actual / Anticipated End Date for milestones may change based upon the pace of completion of the research. The Approximate % Complete is indicative of current progress and will be considered alongside comments. Comments should detail actions / achievements since the previous report including where progress on another milestone is affected. For example, has been delayed or delivered earlier as a result.

6. Describe the key research findings/outcomes (if any) from this reporting period.

300 words remaining.

7. Provide a summary of progress towards implementing your research findings and how you intend to ensure their translation to support improved health outcomes. *

300 words remaining.

8. Has your Sapphire Profile been updated to indicate your availability to participate in NHMRC peer-review activities? *

Your Sapphire Profile is to be updated annually by the end of June each year.

Yes

No

9. Has your Sapphire CV been updated to reflect all current publications associated with this research activity? *

Your Sapphire Profile is to be updated annually by the end of June each year.

Yes

No

10. Provide the Digital Object Identifiers (DOI), or other permanent identifier, for any research outputs (including publications, datasets and other openly accessibly outputs) from this Research Activity that have been, or will be, made openly accessible during the reporting period for this Progress Report. Provide only the DOI, and not other identifiers such as website addresses and PubMed IDs.

600 words remaining.

11. Please provide any other comments you wish to make with respect to this grant:

300 words remaining.

Please fix all errors listed in the form below before continuing

Note: In examining progress reports, NHMRC may wish to use details of publications contained within the CV. Therefore it is preferable that this is kept up to date.
