## NHMRC Final Report

Preview Save

Note: You are able to access this form at any point during the grant's duration. Please save your progress after entering information. Only submit the report once the grant and report are completed.

### Workforce supported by the grant

NHMRC would like to understand the nature of the workforce supported by its grants, including diversity of job functions. Please complete the table below with the number of people to whom the grant provided a salary (partial or full), including those at collaborating institutions if there were any.

Please do not include individual personnel more than once. If a health practitioner on the grant also has a PhD, please include them in the health practitioner section.

NHMRC suggests completing the table progressively through the grant, instead of waiting until the end of the grant.

Add the number of positions (not FTE) supported by the grant in the funding period.

Complete the workforce table from 2024 onwards, even if the grant was active before 2024. For example, if 2024 was year 3 of your grant, begin completing the table from year 3 onwards.

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8
<5 Years post-PhD (excluding career disruptions)								
5-10 years post-PhD (excluding career disruptions)								
>10 years post-PhD (excluding career disruptions)								
Higher Degree Research Student								
Health Practitioners (e.g., doctor, nurse, midwife, dentist)								
Allied Health Practitioners (e.g., physiotherapist, audiologist, optometrist)								

### Other Position

(e.g., clinical trial manager, research assistant, program manager, administrative assistant)

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8
Other Position								

+ Add Another

NHMRC is committed to building capacity of Aboriginal and Torres Strait Islander researchers and reaching gender equity in its grant program. NHMRC would like to understand the diversity of people supported by its grants. The following question is optional as we understand collecting this information may be difficult. The data collected is not identifiable and will be managed as per NHMRC's Privacy Policy.

Of the people supported by this grant, how many were:

Women or female?

Non-binary (gender)

Aboriginal and/or Torres Strait Islander people?

### Research Outputs, Outcomes and Impacts

The information sought in the sections below will help NHMRC in reporting to government and identifying success stories for our outreach and communication activities (such as 10 of the Best). Over time, this information will help us identify, monitor and evaluate metrics such as changes to health outcomes, health practice, health efficiency and economic potential to support NHMRC's mission of 'building a healthy Australia'.

#### Pathways to Impact

NHMRC seeks insight into the research outputs, outcomes and impacts generated from this research grant. Please tick all items that apply. Please limit selections to outputs, outcomes and impacts that have already been generated, rather than those intended in the future.

Research Outputs (Use of knowledge within the academic sector)	Outcomes (Use of knowledge beyond the academic sector)	Impact
<input type="checkbox"/> Research Publications	<input type="checkbox"/> Uptake or use of evidence by decision /policy makers (e.g. adopted into policy, clinical guideline, service delivery).	<input type="checkbox"/> A paradigm shift in a research field.
<input type="checkbox"/> Conference Presentations	<input type="checkbox"/> Policy or program adopted.	<input type="checkbox"/> Creation of a new area of research.
<input type="checkbox"/> Granting of a patent	<input type="checkbox"/> Clinical guideline adopted.	<input type="checkbox"/> Impacts on the well-being of the end-user, public and community.
<input type="checkbox"/> Development of new open access, dataset/s (e.g., new genome sequences)	<input type="checkbox"/> International or national practice standards adopted.	<input type="checkbox"/> Changes in behaviours, attitudes; improved social equity, inclusion or cohesion.
<input type="checkbox"/> Contributions to registries and biobanks.	<input type="checkbox"/> Clinical trials (Phase 1 and later) underway.	<input type="checkbox"/> Improved social determinants of health.
<input type="checkbox"/> Sharing of research data, software, code.	<input type="checkbox"/> License agreement with a company.	<input type="checkbox"/> Improved productivity due to research innovations (reduced illness, injury etc.)
<input type="checkbox"/> Uptake of research tools and techniques.	<input type="checkbox"/> Funding from venture capital or other commercial sources or other sources involving industry co-participation.	<input type="checkbox"/> Change in health indicators such as QALYs, DALYs, Potential Years of Life Lost, Patient Reported Outcome Measures.
<input type="checkbox"/> Development of new research field/s.	<input type="checkbox"/> Successful transition from start-up company (public market flotation, merger or acquisition).	<input type="checkbox"/> Change in health system indicators such as: (a) relative stay index for multi-day stay patients, (b) hospital standardised mortality ratio, (c) cost per weighted separation (d) total case weighted separation.
<input type="checkbox"/> Development of (a) New service delivery or system change, (b) New (or changed) prevention program, (c) New (or changed) intervention, (d) New (or changed) device, (e) New (or changed) therapeutic or change in clinical practice.	<input type="checkbox"/> Development of pre-good manufacturing practice prototype.	<input type="checkbox"/> Relative stay index for multi-day stay patients
<input type="checkbox"/> Consumer and community engagement in the research process.	<input type="checkbox"/> Dissemination of research to consumers and the community via mainstream and/or specialist media	<input type="checkbox"/> Hospital standardised mortality ratio
<input type="checkbox"/> Social media engagement.	<input type="checkbox"/> Successful generation or submission of a regulatory standard for prevention or an intervention.	<input type="checkbox"/> Cost per weighted separation
<input type="checkbox"/> Presentation at workshops and/or forums.	<input type="checkbox"/> Applications for pre-market approval of a medical device, a new therapeutic or change in clinical practice registration (by TGA, FDA etc.).	<input type="checkbox"/> Change in Medicare Benefits Schedule/Pharmaceutical Benefits Scheme costs.
<input type="checkbox"/> Other	<input type="checkbox"/> Other	<input type="checkbox"/> Product sales
		<input type="checkbox"/> Other

Summarise the research conducted and the outputs that arose from the grant.\*

\*Note this information may be used for media and communication activities by NHMRC.

Explain in more detail the outcomes and impacts selected above, including their reach, significance and potential benefits to the Australian community.\*

\*Note this information may be used for media and communication activities by NHMRC.

Provide the Digital Object Identifiers (DOI), or other permanent identifier, for any research outputs (including publications, datasets and other openly accessible outputs) from this Research Activity that have been, or will be, made openly accessible by the due date for this Final Report.\*

\*Note this information may be used for media and communication activities by NHMRC.

CIA: On accepting this grant offer, the Administering Institution agreed to make available personnel to provide professional input into assessing applications. Have you participated in NHMRC Peer Review over the term of the grant?

- Yes  
 No

If no, why not?

Select a dropdown option

Type to search

Not Selected for Peer Review

Did not self-nominate

Other

CIA: A Final Report consists of completion of this report and updating your Sapphire Profile, linking relevant research outputs and outcomes to the grant. Is your Sapphire Profile up to date?

- Yes  
 No

\*Note only submit this final report once the grant and report are completed. If you are entering information in the report before the grant is completed, press the Save button located at the top of the form.
